Orphanages

Camps

Humanitarian Aid

Family Home

Who We Are

[Spring of Revival](#) is registered in Minsk, Belarus and run by Belarusian nationals. SOR helps orphans by providing humanitarian aid, running summer camps and visiting orphanages. A main program is the Minsk Family Home. The ministry works with several Belarusian churches whose leaders help the programs. SOR is supported by individuals and churches across the U.S. through prayer, monetary donations, and participation in short term missions.

Orphanage Ministry

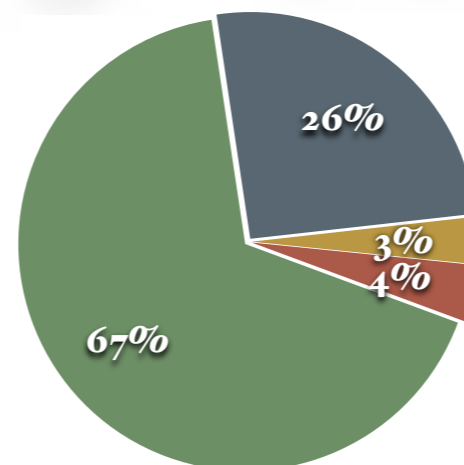

There remain many orphans in Belarus. The orphanages are often under funded, meaning they are short staffed and short supplied. The children therefore can become depressed and fail to thrive as they might otherwise. SOR helps these children in any way possible. This includes coming along side of and supporting staff, providing programs for the children, establishing nurturing relationships with children, and telling the children about God's love for them.

Minsk Family Home

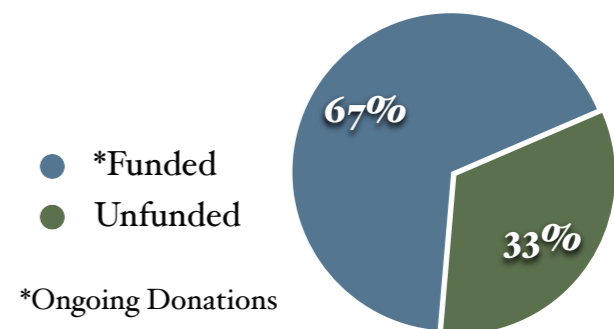

Orphans in Belarus have little hope of having a family, receiving an education, having decent housing or entering a profession. The [Minsk Family Home](#), a residential program for graduate orphans, gives another message — one filled with hope, starting with the message of salvation. While living in the home, the staff focuses on four areas: Discipleship, Life Skills, Social Skills, and Transition to Adulthood.

Description	Monthly	Total
Program	\$2,485	\$29,820
