

FUNDING AND DONATIONS

Wheelchairs are expensive, handicap access is limited, and schools and the culture in general have limited special needs capability. All this results in physical and learning delays and diminished educational opportunities; the needs are many and ever-present.

Sunbeam is currently receiving financial donations for every aspect of this project:

- Building materials and labor
- Fixtures (baths, kitchen, electrical, etc)
- Special Appliances (standing frames, wheelchairs, etc)

In addition to funds, we are happy to receive in-kind donations:

- Kitchen and bedroom furnishings
- Sports equipment, computers, games
- Developmental material, medical supplies

Center for Children with Disabilities

SUNBEAM

MEETING THE PHYSICAL,
DEVELOPMENTAL, AND SPIRITUAL NEEDS
OF CHILDREN WITH DISABILITIES
IN NORTHEAST ESTONIA

Puuetega Laste Tugikodu

PÄIKESEKIIR

THE NEED

**The greatest sin is not hatred,
but indifference.**

Mother Theresa

Children with special needs in Jõhvi and Northeast Estonia need a warm, comfortable place where they can receive love and care.

Over 100 children in the area around Jõhvi are home-bound, living in poor families, with little hope for improved conditions.

These children need to communicate, expand their horizons, connect with each other, make friends and find kindred spirits.

Sunbeam will help fill this need and will be the only facility of its kind in Northeast Estonia.

HOW WE WILL HELP

Sunbeam will be a day center for children with a range of disabilities. Our vision is to become a school as well.

Working with domestic and international experts, Sunbeam will prepare individualized programs to address specific areas of developmental delay, dramatically improving quality of life.

Our loving staff will help children develop creatively, spiritually and socially.

We want these precious children to know that we care for them and love them.

GENERAL INFO

The city of Jõhvi has given Sunbeam a building. Local governmental officials are fully supportive of this program. Previously a kindergarten, the building is located in the city center and is in need of renovation.

Founding Board Members:

- Artur Põld: Methodist Minister, director of multiple ministries in Northeast Estonia
- Andres Toome: Project Architect, past city architect for Jõhvi, current city architect for Narva Jõesuu.
- Michael Cantrell: Executive Director of Stoneworks International

Sunbeam has partners in several countries, including the UK, Germany, Norway, Finland and the United States.
